

Catalog for technical services for 2025

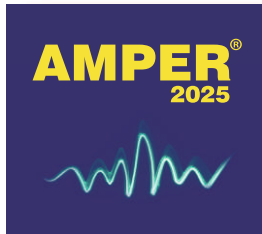

www.amper.cz

BRNO EXHIBITION CENTRE

18. - 20.3. 2025

TERINVEST - REALIZATION DIVISION

Deadline for orders is 7th February 2025
Orders before 31st December 2024 and receive a 10% discount

Dear exhibitors,

in the attachment I am sending You the Price list of technical services from Terinvest company for 31st year of the trade fair **AMPER 2025** takes place at exhibition area in Brno.

In this Price list You can find complete offer for realization of expositions including equipment, graphic works, technical installments, cleaning of the stand, flowering.

Please note that there is necessary to meet the deadline for order of technical installments.

DEADLINE FOR ORDERS is 7th February 2025
(order can be send without stand number!)

There will be counted 30% additional payment to orders for technical services we get after the assembly of the trade fair starts.

Please pay attention to sequent information.

You will be allowed to start the assembly of exposition only with:

- **agreed Application for stand approval** (page No.18)
- **agreed Electro-installment project** (page No. 22)

These documents are necessary to have only if Terinvest company is not the constructor of the exhibition stand.

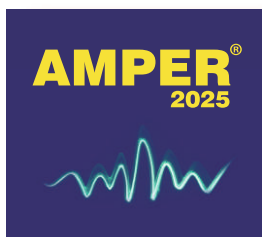

Signed up order form for technical installments is agreement with:

- **technical and safety instructions** - for download at www.amper.cz (section "for exhibitors")
- **us processing, saving and storing your personal data in accordance with GDPR**

I am looking forward for cooperation and personal meeting with You.

APPLICATION FOR STAND APPROVAL

Deadline is 27th February 2025

The filled up form send to email projekty@bvv.cz

COMPANIES WHOSE STAND ARE BUILD BY TERINVEST COMPANY DO NOT FILL!

TRADE FAIR: AMPER 2025	STAND: _____
Exhibitor:	Town/Coutry:
Street:	City:
VAT reg.n.:	Phone/fax:
E-mail:	Location: IN A ROW <input type="checkbox"/> CORNER <input type="checkbox"/> PENINSULA <input type="checkbox"/>
Representative agency:	Contact:
Street/Town/Country:	VAT reg.n.:
E-mail:	Phone/fax:

Hereby we apply for a stand design approval and permit to build the following structures during the fair, in accordance with terms specified below (tick off where appropriate - it is possible to tick more boxes).

a/ Simple ground floor stand design:

- Erection of a standard stand using the structure system (this stand is not subject to approval, if the exhibition space does not exceed 30 sqm and the stand height does not exceed 5 m at the highest point) and a stand maintains the distance between graphic areas (especially raised banners above 2,5 m) from neighboring exposure min. 2m. This note does not apply to graphics at the front of the exhibition stand (sign-boards).
SUBMISSION OF THE FORM IS REQUIRED. THE CONSTRUCTION OF THE EXHIBITION STAND WILL NOT BE ALLOWED WITHOUT THE SUBMISSION OF A REQUEST.
- Erection of stand on an outdoor area (this stand is not subject to approval, if the exhibition space does not exceed 30 sqm and the stand height does not exceed 5 m at the highest point).
SUBMISSION OF THE FORM IS REQUIRED. THE CONSTRUCTION OF THE EXHIBITION STAND WILL NOT BE ALLOWED WITHOUT THE SUBMISSION OF A REQUEST.

b/ Other stand design:

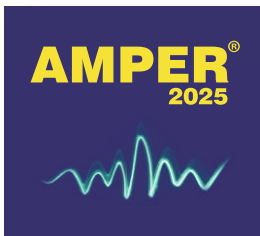

SUBMISSION OF THE FORM AND DOCUMENTS ACCORDING TO THE TYPE OF STAND CONSTRUCTION IS NECESSARY. THE CONSTRUCTION OF THE EXHIBITION STAND WILL NOT BE ALLOWED WITHOUT THE SUBMISSION OF THE REQUEST AND THE REQUIRED DOCUMENTS.

- Erection of a standard stand using the structure system with the size exceeding 30 sqm of exhibition space of height exceeding 5 m at the highest point - see enclosure sections 1/6.
- Erection of stand using other than standard materials (see the general technical and safety regulations) - see enclosure sections 1/, 2/, 6/
- Erection of a special stand structure, unusual supporting structure, use of glass elements - see enclosure sections 2/, 3/, 4/, 6/, 7/
- Suspended posters, floating objects - see enclosure sections 5/, 7/
- Erection of multi-storey stand (floor area sqm) - see enclosure sections 2/, 3/, 4/, 6/, 7/

If any questions do not hesitate to contact directly *Mr. Bednář and Mr. Pěček.*

THE DEADLINE TO SEND FILLED UP FORM ON EMAIL ADDRESS: projekty@bvv.cz is 27th February 2025.

Approval of the exhibition stand will be sent to the e-mail address of the realization company and the exhibitor.

APPLICATION FOR STAND APPROVAL

Deadline for orders is 27th February 2025

Enclosure

It is necessary to enclose the following documents with the application (if sent in electronic form or fax please send all documents in one copy only):

1. Simplified floor plan, side view with spot heights and description of materials used (2 copies).
2. Description of the structure with details of used materials and their flammability class (2 copies).
3. Floor plan in 1:50 or 1:100 scale, views, axonometric projection including spot heights used (2 copies).
4. If glass elements are used in the structure, rules set out in the technical and safety regulations must be respected.
5. Drawing of the suspended structure in the floor plan of the stand, with marking of the required suspension points. Specifying the load on each suspension point (the limit for one point is 150 kg), specifying at what height the structure will be suspended.
6. Static analysis elaborated by a licensed design engineer, certificates for unusual materials and other documents as requested by the show organiser.
7. Designer (name, address, phone number), design engineer (name, address, phone number).

All plans, descriptions and calculations must be provided with the date and signature of the author. If the power of attorney was not granted, this form must be signed by the exhibitor.

STAND CONTRACTOR DECLARATION FOR STAND WIRING:

Representative agency:	Contact:
Address:	VAT reg.n.:
E-mail:	Phone/fax:

As a stand contractor I declare, that all works on stand wiring was made according to technical and safety regulation (ČSN or similar European regulation).

Approx power consummationkW

License number for electrician

WITHOUT ELABORATED ELECTRO-PROJECT THE POWER WON'T BE TURN ON YOUR STAND.

THIS RULE DOES NOT OPERATE IF THE CONTRACTOR OF YOUR STAND IS TERINVEST COMPANY.

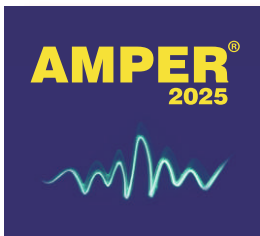

We submit the electro-project to appraisal

- a/ **Construction Octanorm simple ground exposition up to 25sqm**
note: Construction of standard exposition mentioned higher. There is enough to submit groundplan with marked place of plug.
- b/ **Construction of exposition over 25sqm**
note: It is necessary to submit electro-project.

Wiring to the exposition at the BVV can be carried out by a specialist company to the eligible activities which must prove ITI permission.

Date

Signature, stamp

5005 – 2,2 kW

corded supply ending socket 230V/16A, the price includes the installation of a socket 230V/16A, power consumption and electric revision

5010 – 3,6 kW

corded supply ending socket 230V/16A, the price includes the installation of a socket 230V/16A, power consumption and electric revision

5015 – 6,9 kW

cable terminated with three-phase 5 pin socket fused 400V/10A, the price includes bringing 3-phase supply 400V completed 3-phase 5 pin socket 32A, and power consumption and electric revision. It is necessary to install your own switchboard, whose individual terminals, are prepeded with the RCD tripping current of 30 mA. Switchboard can also be ordered to hire for a fee.

5025 – 11 kW

cable terminated with three-phase 5 pin socket fused 400V/16A, the price includes bringing 3-phase supply 400V completed 3-phase 5 pin socket 32A, and power consumption and electric revision. It is necessary to install your own switchboard, whose individual terminals, are prepeded with the RCD tripping current of 30 mA. Switchboard can also be ordered to hire for a fee.

5035 – 17 kW

cable terminated with three-phase 5 pin socket fused 400V/25A, the price includes bringing 3-phase supply 400V completed 3-phase 5 pin socket 32A, and power consumption and electric revision. It is necessary to install your own switchboard, whose individual terminals, are prepeded with the RCD tripping current of 30 mA. Switchboard can also be ordered to hire for a fee.

5045 – 22 kW

cable terminated with three-phase 5 pin socket fused 400V/32A, the price includes bringing 3-phase supply 400V completed 3-phase 5 pin socket 32A, and power consumption and electric revision. It is necessary to install your own switchboard, whose individual terminals, are prepeded with the RCD tripping current of 30 mA. Switchboard can also be ordered to hire for a fee.

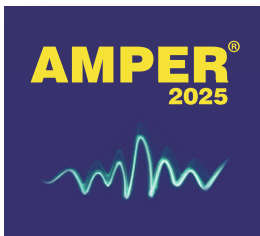

5047 – 27 kW

cable terminated with three-phase 5 pin socket fused 400V/40A, the price includes bringing 3-phase supply 400V completed 3-phase 5 pin socket 63A, and power consumption and electric revision. It is necessary to install your own switchboard, whose individual terminals, are prepeded with the RCD tripping current of 30 mA. Switchboard can also be ordered to hire for a fee.

5050 – 40 kW

cable terminated with three-phase 5 pin socket fused 400V/63A, the price includes bringing 3-phase supply 400V completed 3-phase 5 pin socket 63A, and power consumption and electric revision. It is necessary to install your own switchboard, whose individual terminals, are prepeded with the RCD tripping current of 30 mA. Switchboard can also be ordered to hire for a fee.

Custom installation must be done according to valid DIN (special attention should be paid to the installation of electrical appliances or flammable material away from flammable materials fixtures). Electrical installation must be carried out as TNS system, ie, 3 + N + PE 3-phase distribution or 1 + N + PE for single-phase distribution. Poor installation will not be connected.

Internet connection

There are two possibilities how to connect to internet at Brno Tradefair Area: metal of Wi-Fi connection

Metal connection

Connection to the internet is implemented through a connection line to the local network ETHERNET. The Exhibitor's PC must be equipped with the ETHERNET 10/100/1000 Mbits/s network card with a possibility of the RJ connector. Offered speed of connection 5,10, and 30 Mbits/s. We recommend this type of connection to exhibitor's who would like to make online presentations etc.

Wi-Fi connection

Wi-Fi connection is suitable for exhibitor's who don't expect high stability of connection (email, browse through websites) Maximum speed of this connection is 10 Mbit. Wi-Fi connection is provided by time coupon, which Exhibitors get right at Brno Trade Fair Area and is provided in a standard IEEE802.11ac. Coupon is only for one user, speed 10Mbit.

You can order private WIFI on the stand in a standard IEEE 802.11ac. This is for 10 users, code 5305.

Specification

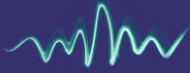

For both of these connections into the network is necessary to set the acquisition of an IP address from the DHCP server.

Connectivity provided by T-Mobile Czech Republic a.s. and FASTER spol. s r.o., as a permanent connection enables connectivity without dialing the full 24 hours regardless of data volume. Part of the connection is 5 public IP addresses (IP addresses can be increased). The connection is synchronous with a guaranteed speed. The price of services is the cost of installing and renting a modem connection. Reviving the exhibitor service carried out by him on the basis of transfer protocol. Connectivity is delivered to the Ethernet interface (on the network's Card). Exhibitor's own network card.

An integral part of the order must be in plan view sketch of the stand with duct connection location.

Payment must be made available according to the invoices sent, but always before the initiation of action. It is inadmissible to provide telecommunication services another entity, such as neighboring exhibitors (Act No. 458/2000 Coll.)

Failure to respect this principle can be solved by recourse - off telecommunication lines without compensation. Claims may be submitted no later than 48 hours before the end of the action in writing. Part of the written complaint must be expressed technical staff, which the exhibitor is obliged to inform. Otherwise, the claim will not be accepted.
